

Anevia and Evermedia Partner to Provide RMC Sport Bouquets to Collectivities

Anevia, a leading provider of OTT and IPTV software solutions, signs a partnership with system integrator EverMedia to distribute RMC Sport, films and series, and entertainment bouquets in collectivities including hotels, hospitals and businesses.

SFR Resort Satellite's new offer was launched at Equip'Hotel in Paris last November. Customers will benefit from premium content, including RMC Sport, the exclusive distribution rights of the UEFA Champions League and Europa League for the next three years.

EverMedia relies on Anevia's Flamingo head-ends to offer premium channels to hotels and other institutions that want to satisfy their increasingly demanding customers. Establishments already equipped with Anevia's Flamingo head-ends can receive the new services of SFR Resort Satellite by simply adding a module and an RMC Sport card.

According to Emmanuel Hardy, consultant at EverMedia, "The SFR Resort offer has proved a clear success so far with our corporate customers - especially media and hotel groups. It's also great news that we now have an offer adapted to the healthcare market! The SFR Resort Satellite offer, combined with the flexibility of ANEVIA equipment and transcoding functions, will open the door to ever more mobile and comfortable solutions for our customers."

"We are excited to be working with EverMedia and providing the technology solution to deliver SFR Resort Satellite's RMC Sport offering," said Ivonne Prugnaud, Anevia VP Sales Worldwide Enterprise. "Our Flamingo solution is deployed in many hotels and hospitals throughout France. Customers can now easily subscribe to this new entertainment package via EverMedia."

About Anevia

Anevia is a leading OTT and IPTV software provider of innovative multiscreen solutions for the delivery of live TV, streaming video, time-shifted TV and video on demand services. The company offers a comprehensive portfolio of video compression, multiscreen IPTV head-ends, Cloud DVR and CDN solutions to enable viewers to enjoy a next-generation TV experience – anywhere, anytime and on any screen - including 4K UHD content. The solutions have been widely adopted by globally-renowned telecom and pay-TV operators, TV broadcasters and video service providers in hospitality, healthcare and corporate businesses.

Founded in 2003, Anevia has a track record of being first to market with advanced video technologies. The company is a member and active contributor to several TV, media and hospitality industry associations. Headquartered in France, with regional offices in the USA, Dubai and Singapore, Anevia is listed on the Paris Euronext Growth market.
